Participants will learn how to excel in the common and not so common managerial challenges they are currently facing. This program is comprised of real-time role plays and video evaluation all done in a live format.

Leadership Live™ is a half or one-day program that provides the opportunity for leaders to bring real and current issues into the training room and learn how best to handle them. But instead of lessons on theory, participants will actually SEE and DEMONSTRATE what makes good leadership. We show participants what leadership looks like in real-time by providing real-time exposure to actual scenarios.

Leadership Live™ Key Points:

- Provides amazing energy allowing participants to ask about and solve any leadership challenge.
- "Real-Time Role Plays" - An office setting set up in front of the room simulates real situations in which participants will take part.
- Access to the best and most relevant managerial coaching available.
- Video taping of selected role-plays for learning "John Madden" style.
- Tremendous opportunity for Peer Coaching
